Outdoor Plant & Garden

(Containing Food Grade Diatomaceous Earth)

Kills and controls the following household and garden pests: ants, crickets, silverfish, fleas, earwigs, caterpillars, slugs, sowbugs, cockroaches, potato beetles, centipedes, millipedes, and bed bugs,

ODOURLESS NON-STAINING POWDER

Contains Diatomaceous Earth

KNOCK DOWN ECO Crawling Insect Control & Killer Bait Powder is formulated using food grade natural fresh water Diatomaceous Earth (DE) and two food grade baits. DE is a form of amorphous silica consists of fossilized remains of diatoms belonging into a major group of algae, one of the most common types of phytoplankton.

KNOCK DOWN ECO Crawling Insect Control & Killer Bait Powder kills and controls the listed crawling insect pests indoors and outdoors around homes and gardens.

HOW IT WORKS: Insects have a thin covering of wax on their body that helps to prevent water loss from the insect's body. Diatomaceous Earth (DE) kills insects through internal and external cutting action, which also causes dehydration of insect pests. Beside DE, the formulation contains of two food grade baits that attracts certain insects to stay longer on treated surfaces and to eat the powder. DE particles damage the insect's gut and insects stop to eat and losses water through damaged tissue (internal desiccation). The formulation can be used as a dry or wet powder.

DIRECTIONS FOR USE: KNOCK DOWN ECO Crawling Insect Control & Killer Bait Powder will remain effective in controlling the following crawling domestic household and garden pests: ants, crickets, silverfish, fleas, earwigs, caterpillars, slugs, sowbugs, cockroaches, potato beetles, centipedes, millipedes and bed bugs.

Indoors (Dry Powder Only)	Ants, earwigs, silverfish, sowbugs, cockroaches,, centipedes, millipedes.	Lightly coat the areas where insects crawl and hide such as cracks or crevices behind and beneath refrigerators, stoves, sinks, cabinets, garbage cans, around pipes and drains, window frames and in attics and basements. Hit insects directly where possible. Repeat treatment as necessary.
	Bed Bugs	Disassemble beds and dust frames, joints, mattresses, tufts and seams, floors and baseboards. Hit insects directly where possible. Repeat treatment as necessary.
	Fleas	Thoroughly dust sleeping quarters of pets and surrounding cracks, crevices, carpeting and baseboards. Hit insects directly where possible. Repeat as necessary.

<p>Outdoors (Dry Powder)</p>	<p>Ants, caterpillars, centipedes, millipedes, crickets, potato beetles, slugs, sowbugs,</p>	<p>Lightly coat areas where these pests are found or may hide including patios, windows, door frames and sills, outside of entrance ways, around foundations, and along ant trails Hit insects directly where possible. For best results, use in areas where dust application cannot be affected by heavy rains or high winds.</p>
<p>Outdoors (Wettable Powder)</p>	<p>Ants, Caterpillars, crickets, potato beetles, slugs and sowbugs</p>	<p>For longer control outdoors, use as wettable powder with water around foundations, shrubs, flowerbeds, gardens, etc. Hit insects directly where possible. Repeat treatment as necessary.</p>

DOSAGE: Dry Powder (Indoor and Outdoor) - Lightly coat desired area. Apply 50g of KNOCK DOWN ECO Crawling Insect Control & Killer Bait Powder per 10m² (1 oz. KNOCK DOWN ECO Crawling Insect Control & Killer Bait Powder per 65 sq. ft.).
Wettable Powder (Outdoor Applications Only) - Apply to point of wetness 75g of KNOCK DOWN ECO Crawling Insect Control & Killer Bait Powder in **1 L** water per 10m² (2 1/2 oz. of KNOCK DOWN ECO Crawling Insect Control & Killer Bait Powder in **1 qt.** water per 65sq. ft.).

STORAGE: Store this product away from food or feed.

DISPOSAL: Do not reuse empty container. Dispose of empty container in household garbage.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid breathing dust. Do not use as a space spray. Avoid contact with eyes.

FIRST AID: If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.
