NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.

FIRST AID: If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

This insecticide is for use only in the automatic Mister dispenser, which releases 27.5 mg of insecticide every 7.5 minutes. The continuous use of this insecticide will reduce flying insect populations (flies, and mosquitoes) within a few hours. One can protect a room up to 170 cubic metres for up to 30 days.

USE AREAS: Restaurants, Food Processing Plants (not in operation), Hospitals, Food Service Establishments, Lodges, Resorts, Dairies, Horse Stables, Beef Barns, Dairy Barns and Poultry Houses while they are in operation. Also for use in Meat Processing Plants when not in operation. Use area must have at least 170 cubic metres of free flow air space.

DIRECTIONS FOR USE: Dispenser must be located 2-3 metres above the floor at a point where air circulation will carry particles throughout the area. Do not install directly over food or food packaging surfaces. To install can, remove protective cap and screw into dispenser. Application on livestock intended for food production is prohibited.

CAUTION: In meat packing plants, **DO NOT** apply when a food/feed processing facility is in operation. Cover or remove all food/feed. Cover all food/feed processing surfaces, equipment and utensils or thoroughly wash following treatment. No exposed meat products, ingredients or packaging materials to be left in the room. Any treated surface that may contact meat food products should be washed and rinsed thoroughly with potable water after spraying and before re-use.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN. DO NOT** use in dwellings (e.g. houses, apartments) or in rooms attached to dwellings (e.g. garage, basement), schools, daycare centers, hospital wards, guest rooms of hotels, motels and resorts, or any area where children may spend more than 4 hours in a day. Contents under pressure. Container may explode if heated. **DO NOT** expose to temperatures above 50 degrees C. **DO NOT** puncture or incinerate. **DO NOT** contaminate food, feed or water. **DO NOT** spray over milk or milking equipment. Avoid contact with skin and inhalation of spray mist. Wash after using. Contents toxic to fish and birds. **DO NOT** install directly over polished, plastic, or varnished surfaces. **DO NOT** use in nurseries or rooms where infants, ill or aged persons are confined. Wear a long-sleeved shirt, long pants, chemical-resistant gloves, socks and shoes during installation, clean-up and repair.

STORAGE: Store this product away from food or feed.

DISPOSAL: When container is empty, press valve to release all remaining pressure. Dispose of empty container in accordance with provincial requirements. For information on the disposal of
