Mopping
Spraying
Foaming
Drains

No Harsh Chemicals or Fumes

DIRECTIONS FOR USE

InVade™ Bio Cleaner™ contains premium, natural microbes that eliminate organic debris and odors, citrus oil, cleaners and foaming agent. It cleans the way mother nature intended without harsh chemicals or fumes. Do not blend with bleach, acid or caustic cleaners, disinfectants or antimicrobial products. Contact us for recommendations for other applications.

Mopping: Use 1 oz per gallon (4 oz per typical yellow mop bucket) of warm (not scalding hot) mop water. Do not add other cleaners. After mopping, pour remaining mop water in drains. For best results, use daily or at least three times a week. Do not rinse treated areas or use bleach, caustic cleaners or disinfectants in mop water.

Spraying: For hand or pump-up sprayers, use 8 oz per gallon of water. For power sprayers or hose-end sprayers, use 1-2 oz per gallon of water. Spray down areas where organic build-up has accumulated and/or where odors are a problem. These areas include under and behind equipment, drains, floors, baseboards, the floor-wall junction, trash cans, enclosures and chutes, dumpsters and pads, urinals, kennels and other animal areas, bird, rodent or other animal droppings, and other hard surfaces where organic build-up and odors are a problem. Do not rinse treated areas or use bleach, caustic cleaners or disinfectants in the treated area.

Eating the Scum of the Earth™

Net Contents: 1 Qt, 1,5,55 US Gal

Shake Before Use

Foaming: Pour directly into a bottle with a foam sprayer, the Foamer Simpson™ or other pump up foamer, or a power foamer. Apply foam to areas with organic build-up and odors, such as the areas listed above under “Spraying”. Do not clean up after treatment. Allow foam to dissipate (within an hour or two).

Drains: Moisten drain with warm water (1-2 gal) if not used regularly, and apply at low drain usage times of the day. Apply to each drain around the edges sufficient to coat the sides of the drain. 4 oz is typical for a 4” drain. Adjust the amount up or down for larger or smaller drains. Repeat every other day for the first week and then 1-2 times per week, or as needed, for ongoing maintenance.

Precautions: Keep out of reach of children. If more than an incidental amount is swallowed, seek medical attention immediately. Give one glass of water and do not induce vomiting. Wash hands well after use. If in eyes, remove contacts and flush with water for 15 minutes. Seek medical attention for any persistent irritation. Do not apply to unsealed wood. If the product contacts a direct food contact surface, rinse thoroughly before resuming food contact. Store in a closed, appropriately labeled container between 35 and 95 °F.

Contains: 2-Butoxyethanol
Contains Fragrance Allergens: Limonene, Linalool
