

SCORPIO

PCO ANT AND INSECT BAIT

Scorpio PCO Ant and Insect Bait is a soil applied insecticide containing spinosad in a micro-pelletized formulation that requires no mixing or spraying. Scorpio can be used around fruits, vegetables, ornamentals, flowers, turf and other sites.

This product contains Spinosad, which is derived from the fermentation of a naturally occurring soil dwelling organism. Scorpio PCO Ant and Insect Bait may be used as part of an Integrated Pest Management (IPM) program to protect structures and planted areas from ants and to protect plants from cutworms either with broadcast or targeted applications.

People and pets can enter the treated area after application.

Active Ingredient: Spinosad 0.07%

Target Pests

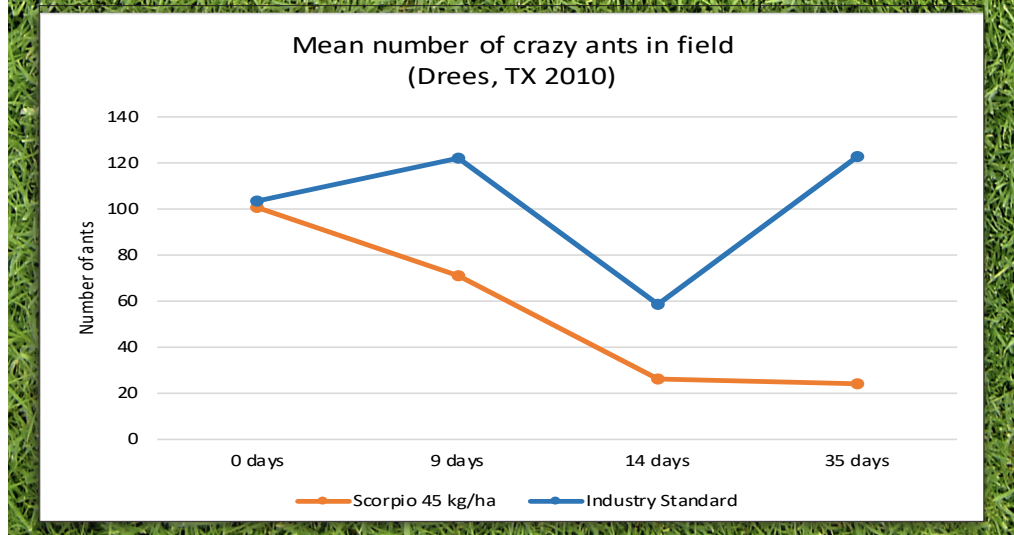

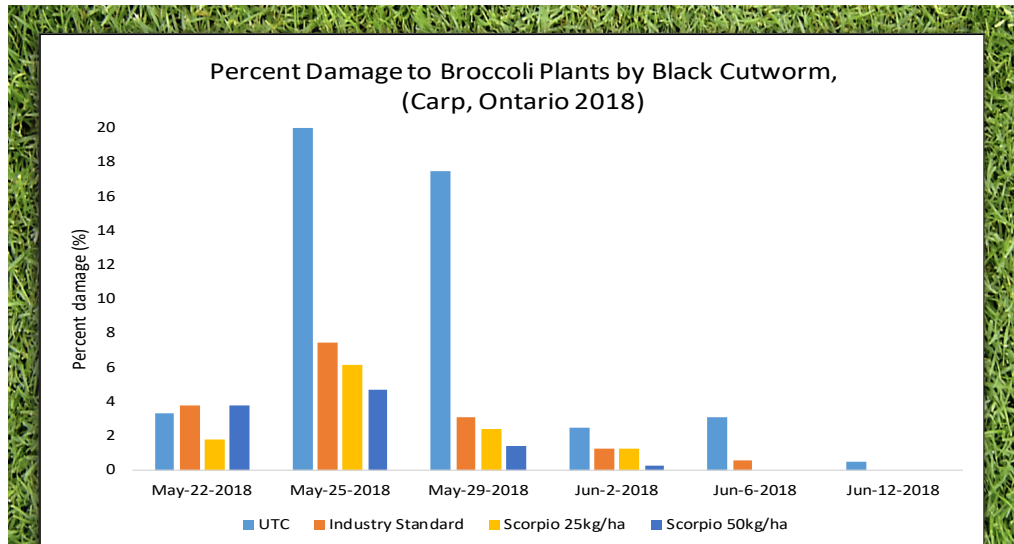

Ants including fire ants, foraging ants, sweet-feeding ants, pavement ants, citronella ants, moisture ants, little black ants, argentine ants, crazy ants, acrobat ants, cornfield ants, ghost ants, odorous house ants, thief ants and field ants, and black cutworms.

Mode of Action

Spinosad affects the insect nervous system, causing muscle contractions and paralysis, eventually leading to insect death. Spinosad has both contact and ingested insecticidal toxicity.

Use Sites

Residential yards and ornamental gardens, lawns, golf courses, residential and commercial landscaping, hotel and motel landscaping, parks, athletic fields, school yards, perimeter treatments of commercial, agricultural and industrial buildings.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label before use.
