

# Avert™ DF

## Cockroach Bait Formula 1

### technology sheet

**Takes lasting cockroach control to places bait stations can't reach.**

- Delivers effective, lasting control of both bait-averse and non-bait averse cockroaches
- Dry formulation drives bait deep into harbourages and areas not reached by traditional bait stations
- Clings onto roaches and consumed during preening

#### Active ingredient

Abamectin – Group 6A

#### Formulation

Dry, flowable

#### One case contains

12 x 30 g tubes

#### Storage

Store in cool, dry area away from children's reach.

#### For use in and around

Commercial/industrial buildings

Garages

Homes

Hospitals (non-occupied patient areas)

Hotels

Motels

Nursing homes (non-occupied patient areas)

Schools<sup>1</sup>

Transportation equipment (includes buses, boats, planes, ships and trains)

Utilities

Warehouses

<sup>1</sup> Do not apply to classrooms when in use.

Cockroaches

(includes strains resistant to carbamate, organophosphate, organochlorine and pyrethroid insecticides)

#### Application site

Sites where cockroaches are found; hiding and runway areas.

### Application rates

Amount needed will vary by site and degree of infestation.

Light infestation	4 to 6 stations per 9 m <sup>2</sup>
Heavy infestation	12 to 24 stations per 9 m <sup>2</sup>

---

### Directions for general use

1. Apply using the supplied hand duster only.
  2. Apply lightly and uniformly to infested areas, and apply directly into cracks and crevices.
  3. Repeat as necessary to maintain adequate control.
- 

### Application tips

Pay particular attention to cracks and crevices, service ducts, false floors and ceilings, wall voids, around electrical/telephone fittings and equipment, near water and sewer pipes, under and behind cabinets, refrigerators and sinks, around window and door frames, and in attics and crawl spaces.

---

### Restrictions

For food areas in food handling establishments, applications are limited to cracks and crevices only.

**Do not** use on humans, animals, clothing or bedding.

**Do not** contaminate crops, feed or food products, food preparation surfaces, dishes, kitchen utensils and food containers.

**Do not** apply product using power dusters in confined areas (i.e. attics, hot water heater closets, furnace rooms, etc.) in the presence of open flames, such as pilot lights.

---
