Temprid SC Measure Up Program

Temprid SC - The Go-to GIC Solution in Canada

Whether it's increasing profitability and customer satisfaction as a result of reduced call backs or simplifying your business operations through the use of a single broad spectrum, indoor/outdoor product, Temprid SC offers it all.

2020 Measure Up Program

For a limited time receive from Bayer a 2 (+1 extra) pack of Measure Right syringes for every case of Temprid SC purchased.

Using Temprid SC – more control per mL, reduced call backs and now easier to measure and apply.

Offer available May 12, 2020 until June 12, 2020.

** While supplies last*

- / Fast-acting knockdown and greater residual control on outdoor perimeter pests including spiders, cluster flies, earwigs and ants.
- / Dual mode of action from two active ingredients.
- / Broad-spectrum insecticide (labeled for 15 pests) with built-in resistance management.
- / Residual effectiveness against bedbugs that lasts up to 6 months.
- / Controls all life stages of bedbugs: EGGS, nymphs and adults.
- / Proven to reduce customer call backs and increase customer satisfaction.

Temprid™
SC

More bugs per mL.
