A QUALITY PESTICIDE WITH BROAD COVERAGE AND CONSISTENT RESULTS.

Dragnet FT is an Insecticide Canada can count on.

It delivers proven efficacy, low odor, superior handling and a versatile label. Its reliable knockdown and residual help you provide continued protection against fleas, ticks, ants, bedbugs, chinchbugs, mosquitoes and 30+ other nuisance pests.

WHAT DOES IT CONTROL AND WHERE?

Dragnet FT Insecticide kills a wide spectrum of pests by contact and, as a repellent, prevents them from entering the treatment zone. It's labeled for use in and around residential and commercial structures, including schools, nursing homes, hospitals, restaurants, hotels and food processing establishments.

FAST. CONVENIENT. PROVEN.

This valuable pest management solution offers the same proven control and reliability customers have come to expect from FMC products. It is available in 1 liter and 3.785 liter containers for the Canadian market.
